

Using Twitter to promote your research and drive your papers' Altmetrics

Arjun Amar – Percy FitzPatrick Institute of African Ornithology – University of Cape Town

#EOUsocialmedia @arjundevamar

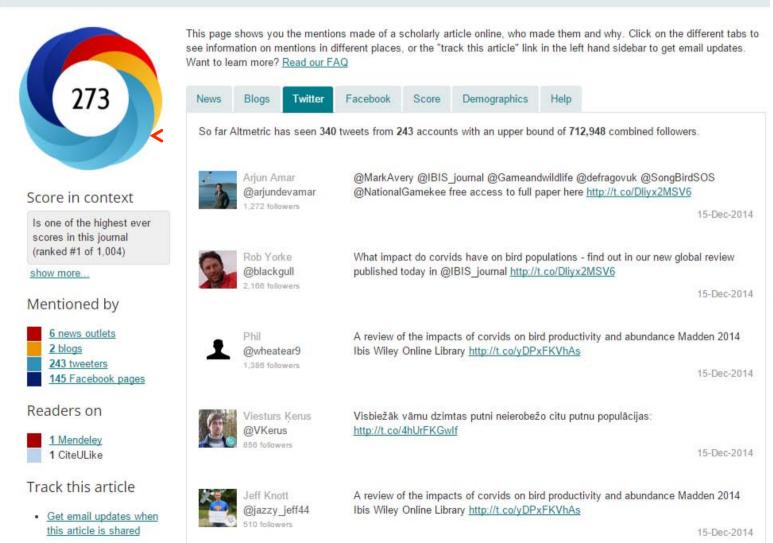

significantly less likely to show a positive impact on productivity than those removing corvids alongside other predators (16 vs. 60%). This suggests that the impact of corvids is smaller than that of other predators, or that compensatory predation occurs. The impact of corvids was

This paper has the highest Altmetric score of any Ibis paper (>1000 papers)

50% of this score came from Twitter

340 tweets from 243 accounts – reaching >700,000 followers

Top 4 tips on using Twitter to promote your research & increase your papers' Altmetrics score

1) Tweet often – vary them – people often miss your first tweets (also a good reason to ensure you have a large number of followers)

What impact do corvids have on bird populations - find out in our new global review published today in @IBIS_journal http://t.co/Dliyx2MSV6

15-Dec-2014

Research suggests corvids unlikely to limit bird populations http://t.co/dtpWmmMwDH

15-Dec-2014

No time limit on it! – I still tweet this paper when the opportunities arise

Here's the paper I'll be presenting today #aoucos2015 on impacts of corvids on other birds spp http://t.co/Dliyx2vhN2 - OA in @IBIS journal

Crows' Bad Reputation Is Put to the Test

DEC. 22, 2014

Observatory

By DOUGLAS QUENQUA Western culture has never been kind to corvids, from Poe's raven to Rossini's thieving magpie. And lately, neither has South Africa, which has been using poison to eradicate crows that are considered a threat to other species.

BOU news article http://t.co/uLbhJowPWa covering our new review examing the impacts of corvids on other bird species http://t.co/Dliyx2MSV6

A new study, published today in the BOU's

species.

journal IBIS, has found that crows - along with their avian cousins the magpie

and the raven - have surprisingly little impact on the abundance of other bird

Collectively known as corvids, these birds are in fact being menaced by mankind in the mistaken belief that removing them is good for conservation. This new study found that in the vast majority of cases (82%), corvids had no

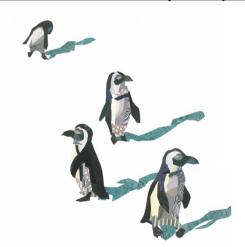

4) Piggy back on other's exposure – and get the paper's link out there

Using Twitter to promote your research and drive your papers' Altmetrics

Summary

- 1) Make sure you have a **good number of followers** by following people to get follow backs
- 2) Tweet often people may miss your first tweets
- 3) Retweet other's tweets about your paper
- 4) Link your paper to other things—be sure to also include the link to your paper
- TV/Radio Interviews
- News stories
- Blogs
- (Other relevant papers)
- 5) **Exploit** others' exposure
