

#BOUasm26

Avian futures: predicting and preparing for the future of avian biodiversity

29 September 2026 | Novotel York Centre, York & Zoom & Bluesky

PROGRAMME

Times are displayed in British Summer Time (BST). Check your local time using this [time zone convertor](#). All presentations with a  Bluesky logo will be appearing on Bluesky at the indicated time.

0930 **ARRIVAL**
Tea, coffee & refreshments

SESSION 1 – PRESSURES AND FORCES THAT SHAPE BIRD POPULATIONS

BST

1000 **WELCOME**

1005 **KEYNOTE**

Understanding future biodiversity change to help inform environmental policies and targets: evidence needs and opportunities

Paul Woodcock | JNCC, UK

1035 **Extreme climatic events alter expected spatiotemporal patterns of seasonal migration in European shags**

Rebecca Lovell (she/her) | University of Aberdeen, UK |  @rebeccalovell.bsky.social

1050 **The role of land cover change and species traits in shaping avian populations**

Ivara Goulden (they/them) | University of North Carolina at Chapel Hill, USA

1105 **Microplastics in regurgitated pellets of predatory birds with overlapping diets and habitats in Southern England**

Rana Ozturk (she/her) | University of Reading & UK Centre for Ecology & Hydrology, UK

1110 **Using an integrated modelling framework to inform flyway-scale adaptive management strategies for a declining duck species**

Julien Terraube (he/him) | French Biodiversity Agency (Office Français de la Biodiversité, OFB), France |  @julienterraube.bsky.social

1115 **SESSION CHANGEOVER (5 MINS)**

SESSION 2 – PREDICTING SHIFTS (RANGE, ABUNDANCE, PHENOLOGY) OR ORGANISM ADAPTATIONS

BST

1120 **KEYNOTE**

Predicting escape from climate change in wild bird populations

Jane Reid | Norwegian University of Science and Technology, Norway & University of Aberdeen, UK

#BOUasm26

Avian futures: predicting and preparing for the future of avian biodiversity

29 September 2026 | Novotel York Centre, York & Zoom & Bluesky

- 1150 **Understanding the recent loss of migratory behaviour in a long-lived bird**
Aldina Franco | University of East Anglia, UK | [@aldinafranco.bsky.social](#)
- 1205 **Vegetation phenology mediates the responses of passerine birds to changes in temperature across Europe**
Celestine Adelmant (she/her) | University of Oxford, UK | [@celestineadelmant](#)
- 1210 **Unlocking the role of environmental cues in tropic asynchrony**
Sienna Rattigan (she/her) | University of Edinburgh, UK | [@siennarattigan.bsky.social](#)
- 1215 **Combined range and phenological shift by passerine migrants in response to climate change**
Mark Eddowes (he/him) | Independent Researcher | [@markeddowes.bsky.social](#)

1220 **LUNCH**

SESSION 3 – MONITORING TECHNOLOGIES AND ADVANCES

BST

1320 **KEYNOTE**

Automated insights: transforming the future of bird monitoring

Stephen Pringle | University of Kent, UK

1350 **Archaeological data reveals fundamental environmental associations of declining UK bird species obscured by anthropogenically-disturbed distributions**

Bethany Pittard (she/her) | University College London, UK

1405 **Individual identification of Leach's Storm-petrels from their vocalisations**

Brennig Hughes (he/him) | RSPB, UK

1420 **SESSION CHANGEOVER (5 MINS)**

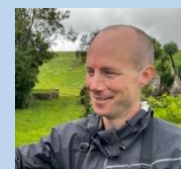

SESSION 4 – HOW CAN WE ADAPT TO A CHANGING WORLD: REWILDING, HABITAT RESTORATION, UNCERTAINTY IN DECISION MAKING

BST

1425 **KEYNOTE**

What past surprises tell us about the future of an endangered bird

Robert J. Fletcher | University of Cambridge, UK

1455 **Targeted conservation effort is required for Nature Recovery**

Jenni Border (she/her) | British Trust for Ornithology, UK

1510 **Global habitat suitability and conservation priorities for vultures under a changing climate**

Radhika Jha (she/her) | INIBIOMA- CONICET, Argentina

#BOUasm26

Avian futures: predicting and preparing for the future of avian biodiversity

29 September 2026 | Novotel York Centre, York & Zoom & Bluesky

1525 **Integrating climate risk into spatial planning for climate change-resilient bird conservation**
Beckie George (she/her) | University of East Anglia, UK

1540 **AFTERNOON BREAK**

Tea, coffee & refreshments

WORKSHOP

BST

1615 **WORKSHOP**

The future of avian research, conservation and management

1730 **CONFERENCE CLOSE**

1735 **DEPARTURE**

Delegates are welcome to stay for further networking at the venue bar
